

Eyelash Extensions State Requirements

Eyelash extension is continuing education class for cosmetologist and esthetician. Only licensed esthetic instructor or cosmetology instructor and maybe lash certified trainer can teach! Anyone can learn but only licensed esthetician and cosmetologist can legally practice in most states! before registering for lash extension trainings and/or applying eyelash extensions, it is your responsibility to check laws of your state regarding eyelash extensions. This is my legal advice for full subject matter of the laws and regulations.
